Ananya Iyer

Senior Data Scientist | Bangalore | ananya.iyer@example.com

SUMMARY

Data scientist with 5+ years building and deploying ML models for e-commerce and fintech.

EXPERIENCE

Senior Data Scientist, Flipkart (2022 - Present)
- Built a churn prediction model (XGBoost, Python) that cut monthly churn by 12%.
- Deployed models on AWS SageMaker with Docker containers and CI/CD; serves 2M predictions/day.
- Wrote complex SQL on Redshift for feature pipelines; built an LLM-based review summariser.

Data Scientist, Razorpay (2020 - 2022)
- Developed fraud-detection models in PyTorch; reduced false positives by 18%.
- Built Airflow + SQL pipelines on AWS (S3, Lambda, Glue).

SKILLS

Python, SQL, scikit-learn, XGBoost, PyTorch, AWS (SageMaker, S3, Lambda, Redshift), Docker, Airflow, LangChain, Git

EDUCATION

B.Tech, Computer Science - IIT Madras, 2020
